

## ERRATUM

*Cereal Chemistry*, Vol. 59: No. 2

(March-April 1982)

The following was omitted from the article on pages 108–112 entitled Results of Collaborative Testing Using a Simplified, Rapid Colorimetric Alpha-Amylase Assay for Evaluation of Sprouted Wheat.

### ACKNOWLEDGMENTS

We are grateful to the following interlaboratory collaborators for assistance in performing the modified CBA test: Patrick Finney, Western Wheat Quality Laboratory, USDA, Washington State University, Pullman 99163; Paul Seib, Dept. of Grain Science and Industry, Kansas State University, Manhattan 66506; Bert D'Appolonia, Dept. of Cereal Chemistry and Technology, North Dakota State University, Fargo 58105; James Lovestrand, General Mills, Inc., Analytical and Methods Development Services Dept., James Ford Bell Technical Center, 9000 Plymouth Ave. North, Minneapolis, MN 55427; William Yamazaki, Soft Wheat Quality Laboratory, Ohio Agricultural Research and Development Center, Wooster 44691; Clarence Knutson, USDA, Northern Regional Research Center, 1815 N. University, Peoria, IL 61604; Brian Marchylo, Canadian Grain Commission—Grain Research Laboratory, 1404-303 Main Street, Winnipeg, Manitoba, Canada R3C 3G9; and Walter Bushuk, University of Manitoba, Department of Plant Science, Winnipeg, Manitoba, Canada R3T 2N2.

We also thank our intralaboratory collaborators Darcy Taylor, Bonnie Howard, Blake Cooper, Scott Nelson, Barbara Campbell, Charles Fahrenholz, Cindy Childs, Harold Mohr, Harriet Meinecke, and Susan Hall at the U.S. Grain Marketing Research Laboratory for their assistance with this test.
